Wesco is pleased to announce that we have added a new Power-Hitter to our lineup as the Canadian Master Distributor of Kolver Electric Tools. Kolver is a high quality, Italian made brand of screw driving systems with capabilities ranging from basic torque control to precision current feedback systems.

Kolver is the perfect complement to Wesco's lineup bridging the gap between our URYU/Panasonic/Wespro torque controlled tools and unparalleled Estic High Capability Fastening Systems. Thanks to Kolvers' low installation, operating and maintenance costs along with low vibration and noise levels they have become the smart choice for
