

Purple Grain Single: The dynamic compact grinder for every job

The integrated backing pad made of environmentfriendly recycled fibre guarantees a high degree of stability and durability. The innovative structure allows for uniform wear and tear without overheating, embrittlement or grain shedding. The deep offset zone allows you to work at a flat angle. Thanks to its special tool geometry, the „Purple Grain Single“ can also reach inaccessible areas, thus offering more possible applications than a conventional tool.

Purple Grain Multi: The extreme compact grinder for continuous use

With its unique multilayer design, the powerful „Purple Grain Multi“ achieves maximum service life. The wear of the three grinding layers remains under control right up to the end. This is reflected in measurable cost savings compared with conventional tools. The integrated M14 threaded holder ensures superfast tool changes without an annoying clamping nut. With its flat tool geometry, the „Purple Grain Multi“ achieves very good finishes, thus avoiding the need for reworking.

THE POWER OF PURPLE GRAIN

A8998030202

Aggressive. Durable.
Ergonomic.

Maximum removal rate with consistently aggressive grinding performance and long service life: „Purple Grain Single“ and „Purple Grain Multi“ – these are the ceramic-grain all-rounders for your heavy-duty applications. The two new, exceedingly forceful grinding discs combine the advantages of three conventional tools:

- the aggressiveness of a fibre disc
- the uniform wear of a rough-grinding disc
- the durability of a high-quality flapdisc

CERAMIC

Self-sharpening ceramic grain ensures consistently aggressive, cool grinding with low contact pressure at the same time. The tools remain aggressive in their grinding capacity, right down to the last grain.

Innovative ceramic grain

Ceramic grain: aggressive right to the very end

- Innovative ceramic grain
- grinding angle < 10°
- no backing pad required
- low-vibration

Power packs for your heavy-duty applications

Purple Grain Single

- self-sharpening ceramic grain
- deeply dished zone allows for grinding of flat surfaces
- integrated backing pad made of environment-friendly recycled fibre

Purple Grain Multi

- integrated M14 threaded holder for ultra-rapid tool changes
- flat tool geometry
- multilayer design

+ **Ideal for**

- Machining weld seams
- Beveling
- Removing large quantities of material

Properties

- high stability and durability
- integrated backing pad from recycled fibre
- uniform wear and tear without overheating, embrittlement or grain shedding
